

Iacopo Torrini • profile

I have both the Italian and the Japanese 1st grade architect license and possess the necessary skills to manage architectural projects smoothly without delays or unexpected costs. After 20 years of full immersion in the Japanese reality, I feel it is time to capitalize on my international background and, by acting as a "bridge" between cultures, to contribute to the success of the international brands in Japan as well as of the globally minded Japanese.

1971	Born in Torino (Italy)
1993	Exchange program at Aarhus School of Architecture (Denmark)
1994	Oxford Brooks University (UK) – graduate Joint Center for Urban Design
1995	Torino Polytechnic (Italy) graduate faculty of Architecture
